Qart.ai: Replit proof of use

Team Qart.ai (SDC Hackathon 2026, Domain 1). Replit hosts the live prototype (Autoscale deployment with its PostgreSQL production database) and runs the evidence pipeline every day as a separate Scheduled deployment against the same database. Screenshots taken on 25 October 2026 from the team's Replit account.

1. The live prototype at https://qartai.replit.app/start

2. The Scheduled deployment (qart-pipeline): Live, region Asia, 1 vCPU / 2 GiB RAM

3. Account usage: sponsor credits being used for AI, project hosting, traffic and storage
