AI is changing your work.
What do you learn next?

Qart.ai turns dated public evidence into a role you can reach and a free route to get there.

7	public sources, checked every day
9	GBS finance roles, scored for you
0 RM	every resource is free and checked

We start with Malaysia's GBS finance workers.

OUR FIRST USERS

1. **Finance & accounting staff**
   in shared services: AR, AP, cash application, reporting

2. **Graduates and students**
   entering GBS, and the career centres that advise them

3. **Career switchers**
   moving into finance roles

WHY START HERE

32%

of Malaysia's GBS workforce, about 89,000 people, are in roles rated highly impacted by AI

TalentCorp also documents their tasks and the roles they can move into, so the advice can be specific.

OBSERVED · TALENTCORP 2024 · P. 48

THE USUAL WAY

Upload a CV, ask a chatbot. It guesses jobs and courses from memory.

QART.AI

Dated public evidence in, results computed in code, and every one shows why.

The evidence engine, live in the app.

COLLECT

NOTIFY

a change you review

It keeps learning after you close the browser.

REPLIT SCHEDULED DEPLOYMENT · RUNS THE PIPELINE EVERY DAY

```
LAST PIPELINE RUN
25 Oct 2026, 01:07 am
NO CHANGE
```

Shown in the app: the last daily run, and whether anything changed.

WHEN THE EVIDENCE CHANGES

OBSERVED

89% of AI use on a Data Management task is automation-style

`Anthropic Economic Index · 2026-05`

ASSUMPTION

Moderate adoption: 50% of it reaches the task. Fast: 100%

`declared scenario rule`

COMPUTED

Data Management weighs ×1.44 · ×1.89; routine skills weigh less

`code, not the model`

YOUR CALL

Fit and route recompute, and arrive as a change she accepts or declines

`What changed page`

ALWAYS ON

Qart.ai

What you just saw, end to end.

dated evidence, profiles, plans

Every AI call has a time budget and a labelled fallback.

Every step of her route serves an SDG target.

4.3 — **Affordable learning**

Every step is a free course she can take while working.

4.4 — **Relevant skills**

Each step closes a gap that her target role really requires.

8.2 — **Productivity**

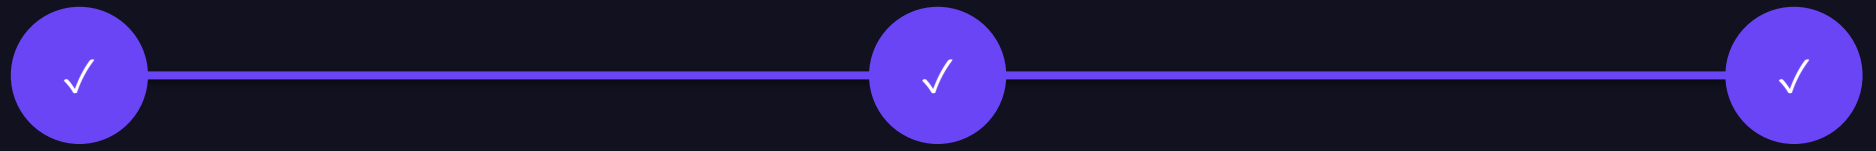

Data and digital skills upgrade how finance work is done.

8.5 — **Decent work**

A realistic move into a transition role TalentCorp lists.

Measured: 73% of required skills have a free course. **Next:** test with real users.

AI changes the work.
Qart helps people choose their next move.
